SSP Language Scholarship Policies

The language class selected must be under the 350 level.

BSFS/5 year M.A. students are NOT eligible for language scholarships until they have completed their BSFS degree and are no longer classified as undergraduate students.

Students are not formally notified when they receive the language scholarship. Instead, they will see the scholarship money posted to their Student Account in MyAccess, according to the schedule determined by the Graduate School of Arts & Sciences (GSAS). SSP does not have access to financial information concerning the awarding of language scholarships.

Part-time students enrolling in the language scholarship will incur the student fees associated with full-time enrollment (Yates fee, etc...) if enrolling in the language scholarship puts their total number of credit hours above 9 (i.e. full-time).

Your language scholarship application/award is based upon a specific course and section number. Once you have enrolled in the language scholarship, you must notify the Coordinator of Admissions & Academic Affairs of any changes to your enrollment (not limited to language courses). If you are considering changing your enrollment during the drop/add period, please contact the Coordinator of Admissions & Academic Affairs to discuss your options.

You must take the language courses for a letter grade and pass the class, in order to obtain the scholarship money. If you fail the class ("F"), you will be required to repay the full scholarship money. Students failing a course will also forfeit eligibility for any future language scholarships.

Language study is very time consuming, especially since many of the courses are 6 credits. If you have received the language scholarship from GSAS and determined that you can no longer take on this commitment during the drop/add period, please contact the Coordinator of Admissions & Academic Affairs immediately.

If you are unsure of your commitment to an intensive language course, SSP recommends that students do not apply for the language scholarship. Dropping a class associated with a scholarship award does not reflect well on SSP or our students.

Additionally, please be aware that language courses may follow the official university calendar for final exams. It is the student’s responsibility to verify with the instructor the date/time of any final examinations associated with the course.

If you determine that you can no longer successfully complete your language study course and the drop/add period has ended, please contact the Coordinator of Admissions & Academic Affairs. Please be aware that withdrawing from a language course after the add/drop period has ended will result in a W posting on your transcript and that you will be personally responsible for the costs of the course as determined by the university refund schedule.

You are also responsible for any language lab fees and books associated with the course. The language scholarship covers tuition only.

Additional information regarding language scholarships can be found here.
